

Our unique HT 119 P stamping ink is highly pigmented and provides extremely well covering, colour fast prints resistant to high temperatures.

Application:

We recommend the HT 119 P only for non-absorbent materials such as metal, sheet metal, ceramics and glass. The colour is easily temperature-resistant up to approx. 600 ° C.

Drying time:

~30min (metal)

Viscosity:

lower viscosity ~15sec
(Ford 4mm cup)

Stamp material:

Rubber cliché

Stamp pad material:

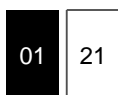

We recommend flexographic printing presses with ink reservoir and rubber printing blocks for HT 119 P. Felt plate pads and rubber stamps are also imaginable in some cases.

Thinner/cleaner:

Thinner 450

Available standard sizes:

50ml/g · 250ml/g · 1000ml/g

Opaque
